

# QA Engineer Senior

REMOTE & SOFIA

PRESENTED TO YOU BY i-RECRUIT

# Overview

We are looking for a Senior QA for our client, a FTSE 100 and Fortune 500 listed company, to work in an ostensibly remote role with the main base of operations in Sofia.

You will enjoy the challenge of working in a fast paced, highly multifaceted environment. You'll be confident working in a disciplined manner and on your own initiative as you strive towards the highest quality of service delivery in a highly regulated industry.

You will join a team of 20, friendly and passionate QA Engineers of various seniority levels.

# Responsibilities

You will be monitoring quality standards - Back End, Front-End and UX, actively assisting in the analysis of test results. You will act as customers advocate regarding the quality.

Your experience in estimating testing processes, identifying and managing risks, together with tracking new project requirements and delivery on issues will be important.

As a team builder and team player, you will be working on multiple projects to tight deadlines.

You'll be closely working with development teams and product owners on a daily basis.

# Requirements

We are looking for someone with a testing background or relevant professional experience with manual and/or automation testing. You have hands-on experience with test design, implementation and execution of manual and/or automation test suites.

You will have experience in software quality assurance. You will have phenomenal knowledge of quality assurance methodologies, tools, techniques, processes and SDLC.

Your in-depth knowledge and experience in developing test strategies will be significant, offering clear, concise and comprehensive test plans and test cases with a focus on accuracy and attention to detail.

Database testing in SQL is important, and knowledge of Java or any other programming or scripting language would be beneficial.

## The stack

- qTest
- Test Rail
- JIRA (or equivalent)
- SQL
- Java (or any other programming or scripting language)

# Personality

You are self-motivated and proactive, working comfortably in a cross-functional setting, in a constantly evolving environment.

You can demonstrate the ability to stay calm in stressful and uncertain times, inspiring the same in your team. We want that.

This will be a career choice for you, and there will be plenty of opportunities to develop your profession with an employer who understands the value of retaining their staff.

# Remote Working

This is a remote, work from home position, but you'll be asked to come to the office a few times a month. All expenses will be entirely covered.

In this ever-changing world, our client recognises the benefits of working remotely, but it's important that you make human contact with your colleagues and get to know your team.

# The Package

You wouldn't expect us to disclose the salary range at this early stage, but we're very confident that we'll meet your expectations. Our client understands the value of rewarding staff well, and has constructed a superb package. There's an annual discretionary bonus of up to 35% of the base salary.

And that's just for starters.

You'll get medical and dental cover for you and your immediate family. You'll get a personal interest allowance to encourage you to pursue a hobby away from the workplace. Work is important, but so is life. If you have a baby – as a mother or father – whilst in work, you'll be given 1000 BGN to celebrate and buy the essentials. That's a lot of nappies!

You'll be given plenty of opportunity to develop your skills and qualifications with plenty of support. And once the World gets back to something like normal, there are summer and Christmas parties and we told that they are quite the event...

# Next...

If we've piqued your interest, we'd be happy to answer any questions that you may have. If you are happy to be considered, we'll need a CV, and after that, there'll be a fairly informal Zoom meeting with the relevant personnel.

If both parties are happy, there will be a more formal interview where your technical experience will be explored.

And if that goes well...welcome to your new job.

# A bit about us

We have decades of experience of recruitment, business and commerce, and it shows. Trading since 2018, we're an independent and proud Irish company, working mainly within the tech sector across Bulgaria, Ireland and the UK. We have developed some very smart techniques for finding key staff for our portfolio of clients. It can be hard and laborious work, but it's really effective.

But you know that already, or you wouldn't be sitting there, reading this.

We treat our candidates with a great deal of respect, and because of this, we develop strong relationships with our ever-increasing database of talent.

We never forget that we are dealing with people who are making life changing decisions. We'd be *delighted* to help you on to the next stage of your career.
