

Front-End Developer

Senior

REMOTE & SOFIA

PRESENTED TO YOU BY i-RECRUIT

Overview

We are looking for a Senior Front End Developer for our client, a FTSE 100 and Fortune 500 listed company, to work in an ostensibly remote role with the main base of operations in Sofia. You will be helping them grow their Agile delivery team in the Sofia office.

As part of the Web Framework Development team, you will be joining a dynamic, exciting Agile team, working as a key part of a globally distributed development unit. You will be responsible for implementing new features, bug fixing while keeping project standards, following clean code principles. Being part of our team means that you will work closely with our Product owners, help QA's and write a lot of tests.

You will enjoy the challenge of working in a fast paced, highly multifaceted environment. You'll be confident working in a disciplined manner and on your own initiative as you strive towards the highest quality of service delivery in a highly regulated industry.

You will join a multinational team of around 6 professionals. The role will report directly to the Team Lead, who is located in Bulgaria.

Responsibilities

You'll be working and learning in the following areas:

- Webpack
- SASS with CSS modules
- SSR with NodeJS
- Rematch (Redux based)
- Websockets
- RxJS
- XState
- Cypress
- BDD with Cucumber

You will also:

Stick to library latest versions. Support only the latest browsers versions which has GRID and Flexbox support. Ensure everything goes through code review. Use CI pipeline and strict git flow.

Requirements

You'll understand Reacts (ideally with hooks) and will be committed to keeping abreast of developments and improving your skills and experience. It'll be advantageous if you have previously worked with near shore and off shore teams. You'll need to be comfortable with Redux and GIT.

The stack

- React
- Redux
- GIT
- React Testing Library (is a plus)
- Jest (is a plus)
- Storybook (is a plus)

Personality

You will be willing to learn and strive for excellence, with serious attention to detail. You will understand how things work under the hood and be a strong team player who is always ready to share knowledge

This will be a career choice for you, and there will be plenty of opportunities to develop your profession with an employer who understands the value of retaining their staff.

Remote Working

This is a remote, work from home position, but you'll be asked to come to the office a few times a month. All expenses will be entirely covered. In this ever-changing world, our client recognises the benefits of working remotely, but it's important that you make human contact with your colleagues and get to know your team.

The Package

You wouldn't expect us to disclose the salary range at this early stage, but we're very confident that we'll meet your expectations. Our client understands the value of rewarding staff well, and has constructed a superb package. There's an annual discretionary bonus of up to 50% of the base salary.

And that's just for starters.

You'll get medical and dental cover for you and your immediate family. You'll get a personal interest allowance to encourage you to pursue a hobby away from the workplace. Work is important, but so is life. If you have a baby - as a mother or father - whilst in work, you'll be given 1000 BGN to celebrate and buy the essentials. That's a lot of nappies!

You'll be given plenty of opportunity to develop your skills and qualifications with plenty of support. And once the World gets back to something like normal, there are summer and Christmas parties and we told that they are quite the event...

Next...

If we've piqued your interest, we'd be happy to answer any questions that you may have. If you are happy to be considered, we'll need a CV, and after that, there'll be a fairly informal Zoom meeting with the relevant personnel.

If both parties are happy, there will be a more formal interview where your technical experience will be explored.

And if that goes well...welcome to your new job.

A bit about us

We have decades of experience of recruitment, business and commerce, and it shows. Trading since 2018, we're an independent and proud Irish company, working mainly within the tech sector across Bulgaria, Ireland and the UK. We have developed some very smart techniques for finding key staff for our portfolio of clients. It can be hard and laborious work, but it's really effective.

But you know that already, or you wouldn't be sitting there, reading this.

We treat our candidates with a great deal of respect, and because of this, we develop strong relationships with our ever-increasing database of talent.

We never forget that we are dealing with people who are making life changing decisions. We'd be *delighted* to help you on to the next stage of your career.
