

iOS

Mobile Developer

REMOTE & SOFIA

PRESENTED TO YOU BY i-RECRUIT

Overview

We are looking for an iOS Mobile Developer for our client, a FTSE 100 and Fortune 500 listed company, to work in an ostensibly remote role with the main base of operations in Sofia.

You'll be developing leading-edge software products to provide the world's best online gaming experience.

As a Mobile Application Developer, you will work on outstanding apps for industry-leading i-gaming brands, enjoyed by millions of players all over the world. You will work with experienced teams who have a proven track record of delivering best of breed software for the online gaming market.

You will work closely with our client's Product Development and Graphics/UI design teams to translate business requirements and innovative UI design concepts into industry leading client software that will be used by a vast player base..

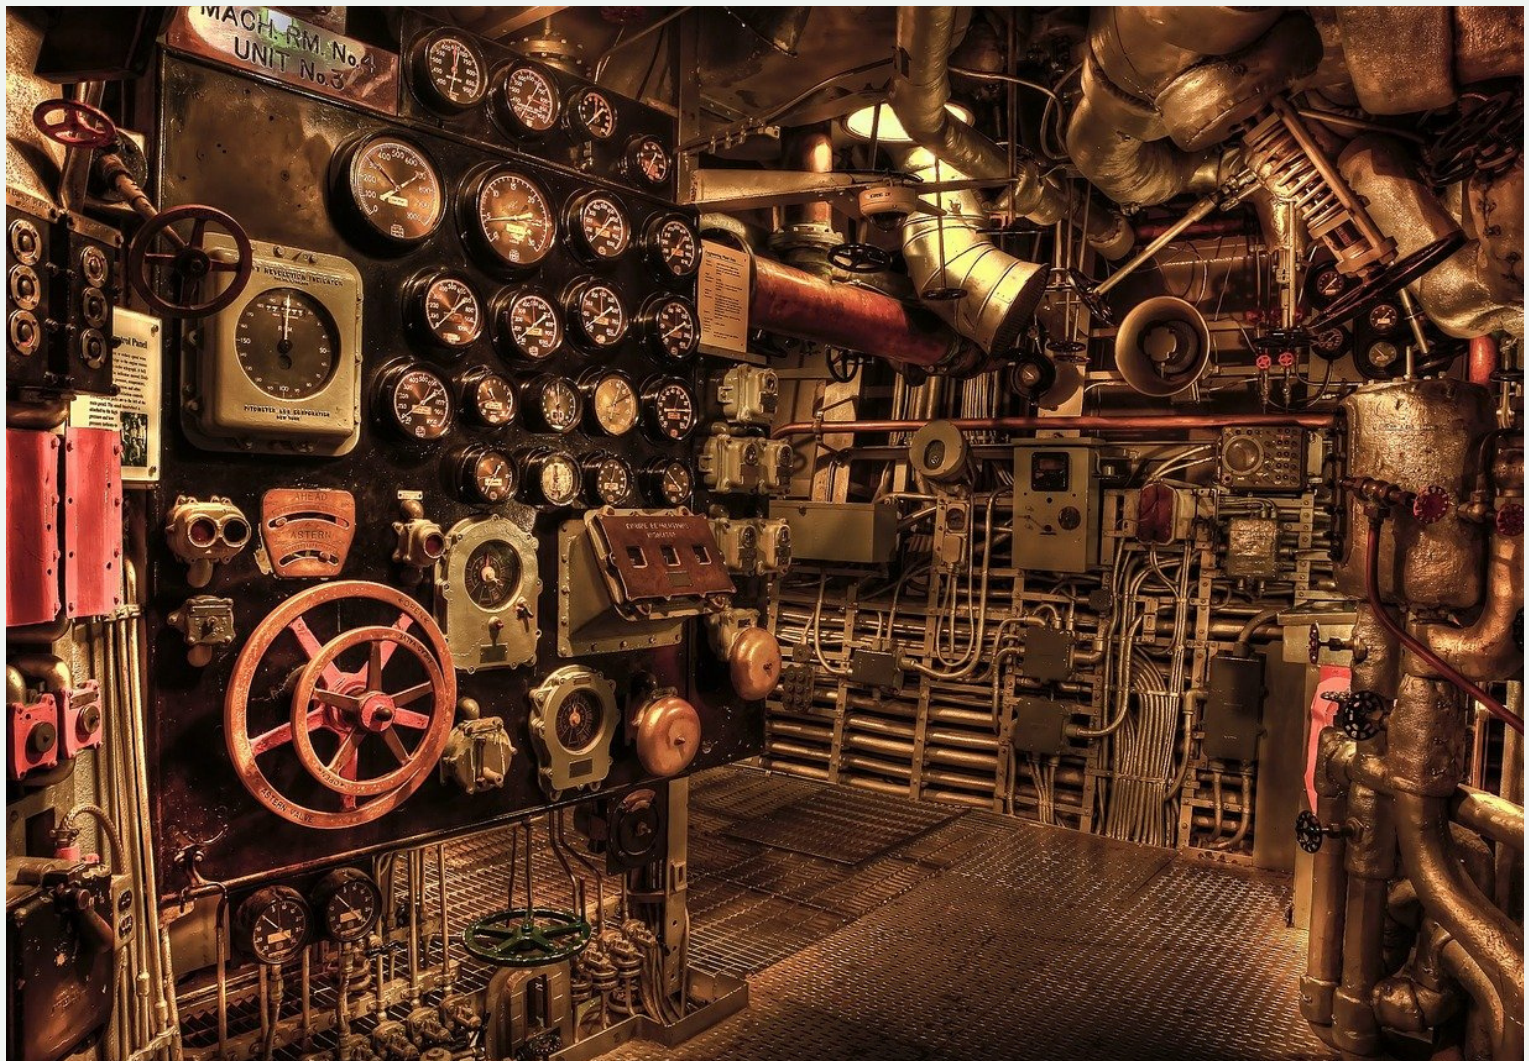

Requirements

You have relevant professional experience as an iOS Developer. You have a deep understanding of Computer Science fundamentals (OOP, data structures, algorithms). You are an expert developer with experience in Objective-C, Swift and iOS SDK.

You have the ability to develop and maintain high code quality and optimize performance. You have a good understanding of OOP design patterns and methodologies.

The stack

- At least 3 years of iOS development experience using Swift or Objective-C
- Experience working with UIKit, Core Animation, GCD, Core Data.
- Strong understanding of how to work with storyboards and constraints.
- Experience working with Git version control and Unit testing.
- Experience in performance profiling with Instruments on Xcode.
- Experience with JSON.
- Ability to learn and experiment with new technologies.

Personality

You'll enjoy the challenge of working in a fast paced, highly multifaceted environment.

You'll be confident working in a disciplined manner and on your own initiative as you strive towards the highest quality of service delivery in a highly regulated industry.

You will enjoy partnering with other developers, designers, and product managers, as well as working on your own, to develop high-quality code that drives mobile applications. You will like keeping it simple and agile. In order to build top quality products, you'll already be remaining current on industry standards and trends in mobile development across multiple platforms.

You'll thrive in developing and maintaining a suite of mobile online gaming clients across a diverse set of mobile technologies. On a daily basis, you'll be comfortable communicating with Stakeholders, gathering business requirements and translating them into technical solutions.

Remote Working

This is a remote, work from home position, but you'll be asked to come to the office a few times a month. All expenses will be entirely covered.

In this ever-changing world, our client recognises the benefits of working remotely, but it's important that you make human contact with your colleagues and get to know your team.

The Package

You wouldn't expect us to disclose the salary range at this early stage, but we're very confident that we'll meet your expectations. Our client understands the value of rewarding staff well, and has constructed a superb package. There's an annual discretionary bonus of up to 35% of the base salary.

And that's just for starters.

You'll get medical and dental cover for you and your immediate family. You'll get a personal interest allowance to encourage you to pursue a hobby away from the workplace. Work is important, but so is life. If you have a baby – as a mother or father – whilst in work, you'll be given 1000 BGN to celebrate and buy the essentials. That's a lot of nappies!

You'll be given plenty of opportunity to develop your skills and qualifications with plenty of support. And once the World gets back to something like normal, there are summer and Christmas parties and we told that they are quite the event...

Next...

If we've piqued your interest, we'd be happy to answer any questions that you may have. If you are happy to be considered, we'll need a CV, and after that, there'll be a fairly informal Zoom meeting with the relevant personnel.

If both parties are happy, there will be a more formal interview where your technical experience will be explored.

And if that goes well...welcome to your new job.

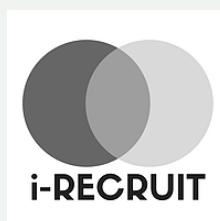

A bit about us

We have decades of experience of recruitment, business and commerce, and it shows. Trading since 2018, we're an independent and proud Irish company, working mainly within the tech sector across Bulgaria, Ireland and the UK. We have developed some very smart techniques for finding key staff for our portfolio of clients. It can be hard and laborious work, but it's really effective.

But you know that already, or you wouldn't be sitting there, reading this.

We treat our candidates with a great deal of respect, and because of this, we develop strong relationships with our ever-increasing database of talent.

We never forget that we are dealing with people who are making life changing decisions. We'd be *delighted* to help you on to the next stage of your career.
